POLICY DOCUMENT ON ENVIRONMENT AND ENERGY USAGE

**Officer-in-Charge
Taki Government College
Taki, 24 Parganas (N)**

Taki Government College is committed to promoting sustainability and reducing its environmental footprint. This policy outlines the college's approach to managing energy usage and environmental impact. The goal is to foster an environmentally responsible campus through effective resource management, waste reduction, and the promotion of sustainable practices.

Policy outlines-

Energy Usage

- Implement energy-efficient technologies and practices in all campus buildings.
- Conduct regular energy audits to identify and address inefficiencies.
- Install energy-efficient lighting college campus.
- Encourage the use of natural lighting and ventilation where possible.
- Explore and invest in renewable energy sources, such as solar panels and wind turbines.
- Promote the use of renewable energy in campus operations and infrastructure projects.
- Encourage the community to turn off lights, computers, and other electronic devices when not in use.
- Promote energy-saving behaviors through awareness campaigns and training sessions.

Waste Management

- Encourage the use of reusable materials and reduce single-use items on campus and implement a comprehensive recycling program for paper, plastics, glass, and metals.
- Set up composting facilities for organic waste from canteens and gardens.
- Promote digital communication and reduce paper usage.
- Implement a "zero-waste" policy for campus events and activities.

Sustainable Practices

- Prioritize the procurement of environmentally friendly and sustainable products.
- Support vendors and suppliers who follow sustainable practices.
- Encourage walking, cycling, and the use of public transportation among students and staff.
- Organize tree plantation drives across free areas of campus.
- Conduct green audit to identify and address inefficiencies.

Education and Engagement

- Enrich curriculum by organizing programmes on environmental sustainability across all disciplines.
- Support and promote research projects focused on sustainability and environmental impact.
- Organize workshops, seminars, and events to raise awareness about environmental issues.

Compliance and Reporting

- Ensure compliance with local, national, and international environmental regulations.
- Regularly review and update policies to align with new regulations and standards.

Conclusion

Taki Government College is dedicated to creating a sustainable campus environment. Through the implementation of this policy, the college aims to reduce its environmental impact, promote sustainable practices, and foster a culture of sustainability among its community members
